

34.2 million moments of truth...

...which is 13 months' data.

Each second is a moment of truth - you never know which crucial second of data will clinch you with actionable evidence.

On the flip side, storing so much data is exorbitantly expensive.

iwatchsystems offer secure, redundant, off-site storage of selected, and abridged, evidence from all cameras, access control devices and administrative functions for a total of 13 months for a low, monthly cost.

13 month Evidence Storage
